FOR IMMEDIATE RELEASE

(NEW) TRIANGULAR COLUMN - ARCHITECTURAL DESIGN BY SELUX CORPORATION

Features choice of three refractor systems in a clean form

HIGHLAND, NY (May , 2005). . . SELUX Corporation has released the Triangular Column, a cleanly designed, three-faced light column that is available with HID lamp sources up to 100 watts. The lamp is located at the top of the fixture and can be fitted with one of three refractors giving choice of light distributions. The housing is constructed of die-cast and extruded aluminum and three high-strength, flush-tempered glass panels that assures a totally sealed optic chamber.
