Windsor Windows donates replacement windows to nonprofit ASK Learning Center

WEST DES MOINES, Iowa – Windsor Windows & Doors donated double-paned replacement windows to improve energy efficiency at ASK Learning Center in Norwalk.

ASK Learning Center is a nonprofit independent school that provides an alternative to the traditional school setting for primary through eighth-grade children. Housed in a rambling two-story frame house on the town's Main Street, ASK is a registered public charity.

Windsor contributed its Next Dimension Signature casement windows to replace old, drafty, inefficient windows in the school. The local window manufacturer's donation was part of a larger capital improvement project for the school spearheaded by actor and Norwalk native Brandon Routh.

Donations allow ASK to continue its educational offerings, pay for ongoing overhead and salary expenses, and offer quality education, according to learning center Co-Director Katie Routh.

"Just as the school's mission is to provide a creative and meaningful learning environment for students," said Mark Rieser, president of Windsor Windows & Doors, "remodeling with energy-efficient windows will provide a comfortable environment for the students to learn."
