### Ronstan Releases 2008 Catalog

Portsmouth, RI, July 10<sup>th</sup>, 2007 -- Ronstan Architectural Rigging Systems has released its 2008 Cable and Rod Tension Systems catalogs. The catalogs showcase Ronstan's innovative Structural Cable, Structural Rod, and Cable Railing systems. It is the most extensive and complete reference on tensile cable and rod systems available worldwide. Contact Ronstan at architectural@ronstan.us or call 401-293-0539 to receive a copy.

Ronstan's 2008 catalogs highlight their range of structural cable and rod tension systems in both stainless steel and carbon steel up to 4" in diameter. Included is Ronstan's new Compact Adjuster which can be used in both stainless steel cable and rod tension systems. The revolutionary Compact Adjuster is designed to simplify the specification and installation of tensile structures while delivering an outstanding aesthetic appearance.

The 2008 Ronstan catalog also introduces 550 stainless steel material for tie rods, which provides a tensile strength twice that of conventional Grade 316 stainless steel.

The Balustrade and Cable Railing catalog section launches five innovative cable railing systems offering a sleek appearance and tamper-resistant features to prevent theft and cable loosening.

Ronstan, the world-wide leader in a cable and rod tensile systems for more than 55 years, provides structural cable and rod solutions for architectural and construction design in the United States, Canada, Mexico, Europe, Middle East, Asia, New Zealand, and Australia.
