All about

IPC® DOOR + WALL PROTECTION

We protect your buildings from relentless damage without compromising your choices in material, color, thickness or pattern. We manufacture Door + Wall Protection that provides a better solution, eliminating never-ending maintenance and costly renovations.

DURABLE
Building interiors take a lot of abuse, but that doesn’t have to leave you in an endless cycle of maintenance and repair. We offer a wide variety of wall protection choices that are sure to give you the look you want and the protection you need. Witness the IPC Rigid Sheet Advantage at inprocorp.com.

POLISHED
Create the look you want without sacrificing the level of protection. Our Door + Wall products give you the best of both worlds and allow you to enhance your building environment.

SUSTAINABLE
Because of our obsession with health and the environment, we are committed to finding breakthrough materials for Door + Wall Protection products. Our patented G2 BioBlend® and Rigid Vinyl materials both give you the durability you need to protect your building and your budget.
PROTECTING YOUR BUILDING AND ITS APPEARANCE
IPC® WALL PROTECTION

Design your walls with added protection.

Whether you’re looking to protect your lobby, corridor or meeting room, we have products to accommodate every protection need.

Specialty Handrails

Please contact your sales representative for more information on our handrails designed to meet specific needs.
DOOR PROTECTION
Protection for all areas of your doorway.

Doors, door frames and door accessories are necessities in buildings. They can also take a great deal of mistreatment. IPC® Door Protection products are made with our Rigid Vinyl material so they are sure to withstand incessant abuse. From Door Frame Protection to eiDoors®, our products will help keep your door areas pristine.

eiDoor®
Doors clad with IPC® Rigid Vinyl Sheet wall protection for maximum impact and damage resistance.

DOOR FRAME PROTECTION

KICKPLATES
We’ve got you covered with

**Clickeze® PRIVACY SYSTEMS**

At Clickeze®, we cover a facility’s most essential privacy needs by making and installing innovative solutions to ensure people feel comfortable. With professional installation, contemporary designs and cutting-edge products, we work with you to provide a warm and welcoming environment for guests, visitors and staff.

---

**PRODUCT EXPERTS**

Our team of product experts can help you find what you need and tailor it to your space. From solar shades to window treatments to bedspreads, Clickeze has you covered.

**VARIETY OF PATTERNS**

We stay up-to-date with the latest color trends to provide you with a variety of pattern choices for your soft goods. **We work with all major textile manufacturers to acquire the pattern or fabric you want.**

**PROFESSIONAL INSTALLATION**

In addition to customizing your soft goods, we can also install them. Our professional team will be there every step of the way to ensure your products are installed efficiently with the expertise they require.
PROTECTING THE COMFORT OF PEOPLE IN BUILDINGS
WINDOW SHADES, BLINDS + COVERINGS

Add function and style to your windows.

We offer a variety of solutions for your windows to match your privacy needs. From sleek shades to versatile blinds to coverings that dress up your windows, we can help you find the perfect option and install them for you as well!

SOLARITY® SOLAR SHADES

WEBBLOK™ + WEBBGLIDE™
Durable and safe solar shade options for specific needs such as education and behavioral health.

HORIZONTAL BLINDS
VALANCES
DRAPERIES
CORNICE BOARDS
CUBICLE TRACK
Keeping your privacy curtains on track.

Our product experts are on hand to help you make the correct selection and are dedicated to keeping you on track with a quick 48-hour shipping turnaround time.*

*Maximum order size for 48-hour shipping is $10,000. Lead times vary for products not in stock. Please contact a Clickeze® representative for specific lead times.

FORMATRAC® BENDABLE TRACK
Easily bends by hand to allow for virtually any track configuration.

WHISPER CUBE®
Provides quiet movement of curtain for noise-sensitive areas.

ULTRA CUBE®
Add patented accessories for a track with maximum versatility.
OPTITRAC®
Optimum performance, effortless moving track fits most specifications.

NANOTRAC®
Sleek, simple and compact design ideal for narrow profiles.
Our obsessive search for superior protective material brought us to Shield by Panaz fabrics. Utilizing silane-based technology, Shield by Panaz® fabrics have been tested and proven to be permanently antimicrobial* to inhibit the growth of mold and mildew. Additionally, these fabrics repel liquids and are highly resistant to most stains. These properties make them ideal for cubicle curtains, shower curtains and window treatments.

*When laundered per manufacturer's instructions.
FABRIC CHOICES SHOULD BE LIMITLESS

Any material—chosen by you.

You have a vision for your building. The fabric you choose for your soft goods should fit that vision perfectly. At Inpro, we don’t want to hinder your design by limiting your choices. Not seeing what you’re looking for in our program fabrics? Not a problem. We work with all major textile manufacturers. We can help you find the ideal fabric to complement your design. Ask your sales representative for more details.

All about

ENDURANT® WASHROOM SYSTEMS

At Endurant®, we fortify your washrooms with our BioPrism Solid Surface products. We offer customized solutions and reliable material to meet your needs and keep your washrooms clean and sanitary without constant maintenance. Additionally, our product experts will be with you every step of the way to ensure you find what you’re looking for.

CUSTOM SOLUTIONS
Our shower surrounds, shower receptors, wall panels and privacy partitions are all designed to your specifications. What does that mean for you? Instead of having to completely restructure your space, we have the ability to create custom products that will fit right into the preexisting structure. This will save you time and money.

RELIABLE MATERIAL
Our proprietary BioPrism® Solid Surface material will stand up against the constant use of your facility. BioPrism is non-porous and antimicrobial to inhibit the growth of mold and mildew.

How the antimicrobial technology works:
1. Direct contact between the surface and microbe ruptures,
2. causing the microbe to lose vital nutrients and water,
3. This results in general weakening and eventual elimination of the microbe.

PRODUCT EXPERTS
Our team of product experts will help you find what you need and tailor it to your project. From shower receptors to privacy partitions, to meeting ADA compliance, our product experts know it all.
KEEP WASHROOMS CLEAN AND SANITARY.
BUILDING YOUR WASHROOM

From surrounds to accessories, we have it all.

At Endurant®, we offer almost everything you need to complete your washroom. From shower systems to grab bars to toilet partitions, we have it all. Our experts are always on hand to assist you from the ordering process through installation, so you’re fully supported from beginning to end.

SHOWER RECEPTORS

SHOWER WALLS

TRIM + SOAP DISHES

SHOWER SEATS
Connect the dots with
SIGNSCAPE®
ARCHITECTURAL SIGNAGE

We know you want to create the best experience possible for everyone who uses your building. That’s why we obsess about creating and installing architectural signage that allows people to know where they’re going and how to get there.

At SignScape®, we manufacture and install signs to provide you with the solutions you need. Unlike any other sign company, we can perfectly match signs with our IPC® Door + Wall Protection and Ascend® Elevator cab products to create a complete look throughout your building.

We take care of everything from design to installation so you can guide the people within your buildings with ease.

PRODUCT EXPERTS
Our team of product experts will help you find what you need and tailor it to your facility. From room identification signs, to directories, to ADA compliant signs, Inpro will make your signage experience easy.

COUNTLESS OPTIONS
Choose from our Rigid Vinyl or Photopolymer material and go from there. With either material, there are many design possibilities. Additionally, our digital print capabilities make adding a custom logo as easy as sending a file. With numerous options to choose from, our Architectural Signage will help you personalize your facility.

PROFESSIONAL INSTALLATION
In addition to creating your signage, we can also install it. Our professional team will be there every step of the way to ensure your products are installed with the expertise they require. Please contact your sales representative for details on availability in your area.
KNOW WHERE YOU'RE GOING AND HOW TO GET THERE
SIGN COLLECTIONS

We make the art of standing out easy.

Designed to take the headache out of sign selection, our Sign Collections feature popular shapes and designs, and are available in a variety of materials and colors.
ASPEX™ PRINTED WALL ART

Turn the walls inside your building into a powerful canvas for your message with printed wall products. Choose your photograph, quote, artwork or image* and we’ll bring it to life with a printing process that maximizes ink usage to make your artwork vivid.

Our Process
1. Provide us with a high resolution digital image in either Vector or Raster format.
2. We print the image to the second surface of our material to protect it from damage and fading.
3. Behind the print, we place a white backer that is used to enhance the color providing you with a richer and more vibrant image. *(Larger images may require additional backing)*

Common Applications

Decorative Wall Art  Logos & Branding  Storytelling & Timelines  Lobby Displays  Informational Displays

*You must obtain the legal right to use any image you want printed. Inpro respects the intellectual property rights of others and reserves the right to request license verification of any image that is submitted for print.*
Take your cab to a new level with

ASCEND® ELEVATOR PROTECTION SYSTEMS

Why sacrifice damage protection for design? With Elevator Cabs you can have both. Now your elevator interiors can benefit from the same great protection we have provided for over 35 years.

Utilize IPC® Door + Wall Protection and SignScape® Architectural Signage to create a cohesive and complete look throughout your building.

MORE IMPACT RESISTANT THAN WOOD

While our Palladium® Wall Panels may look like real wood, they’re able to stand up to the damage caused by heavy elevator traffic. Whether it’s a luggage cart or a hospital gurney, your elevator will continue to look like new.

NO MORE CHIPPED LAMINATE

Our Palladium® Beveled Edge Wall Panels feature Edge Protectant Technology™ with fully wrapped and bonded edges. What does that mean? It means the days of material chipping at the edges are over!
ELEVATE THE LOOK OF YOUR CABS
CAB DESIGNS

Prevent chips and dents while maintaining a modern, sleek design.

Select the right cab for your facility from our many different options. From panel color to handrail size, you can mix and match to create the perfect cab interior that will leave a lasting impression.

JOINTMASTER® EXPANSION JOINT SYSTEMS

At JointMaster® our products allow for the natural shifting and movement of buildings with our seamless Expansion Joint Systems engineered to handle every condition. We realize every building has different needs, so we have a team of experts on hand to help with your project-specific conditions.

OBSESSIVELY ENGINEERED
We constantly test and review our systems to create designs engineered to meet your needs. Whether it's applying tapered plates for maximum durability and longevity, noise dampening elements, to reduce noise pollution, or using recycled tires as an eco-friendly option, we continuously innovate to provide you with the best solutions.

WE PROTECT YOUR BUILDING
From ensuring smooth transitions for equipment and wheelchairs, to protecting your parking facility from the elements, you can count on us to provide the protection your buildings require.

EXPERIENCED EXPERTS
Let us eliminate your toughest challenges so you can focus on more important things like your building’s design and construction. Consult our team of experts about joint system selection and installation methods. We will even come to your office or job site.
ENGINEERED TO HANDLE EVERY CONDITION
